

PurMop 2.0 ERGO-S 200 - 2 Bucket Mop Wetting System

Why Choose PurMop 2.0 ERGO-S 200 - 2 Bucket Mop Wetting System

2.0 ERGO-S 200 is the most compact model of the series and is especially suitable for very small cleanrooms. It has two stainless steel buckets and allows the touchless pick-up and wetting of fresh mops. The unique ERGO wetting unit also enables reproducible, disinfectant-saving dosing in just one step and can be precisely adapted to the fluid requirements of the application using various mop plates. Thanks to the space-saving design, the 2.0 ERGO-S 200 can be easily stowed away and transported.

More Info

The 2.0 ERGO-S is a unique, touchless cleanroom cleaning system of the second generation made of high quality stainless steel. In combination with user-friendly accessories and a selection of our PurMop safe or basic use mops this system combines ergonomic handling with a durable, cleanroom suitable design. The intelligent ERGO cleanroom cleaning trolleys set the highest standards of cleanroom cleaning. The innovative mop wetting device guarantees reproducible results and avoids excess fluid. The intelligent mop discarding mechanism enables a hands-free discarding of used mops.
