Applications

Wipes are designed for use in clinical areas such as:

Cleanrooms

Laboratories

Casualty Depts

Operating Theatres

GP & Dental Surgeries

Other areas where infection prevention and control is a prime requirement e.g. trolleys, delivery units and medical devices including - stethoscopes, blood pressure cuffs, stainless steel work benches.

Technical data

70% isopropyl alcohol disinfectant for clinical surfaces and non-invasive medical devices & equipment.

Azowipes are impregnated with the highest grade of 70% isopropyl alcohol and blended with 0.2 micron de-ionised water.

Designed to provide effective and rapid disinfection. The quick-drying formula will leave the surfaces thoroughly disinfected with no residue.

Fully validated and are clinically proven to be effective against a broad range of micro-organisms including bacteria, fungi, yeast, enveloped viruses e.g. HIV,HCV, HBV and TB.
