

## Why Choose PurQuip Ergo 200 - 2 Bucket Mop Wetting System - Plastic

Compact model, especially suitable for very small cleanrooms

Double bucket system for fresh & used mops

2 plastic buckets, each 18 litres

Precise mop wetting in one easy step

Ideal for ISO Class 7-8 cleanrooms, GMP C-D

Compatible with all PurQuip® mop frame, handles and mop heads

Plastic castors (ESD), two with brake

Hydroflex code: 2123027

## More Info

ERGO 200 is the most compact model of the series and is especially suitable for very small cleanrooms. It has two plastic buckets and allows the touchless pick-up and wetting of fresh mops. The unique ERGO wetting unit also enables reproducible, disinfectant-saving dosing in just one step and can be precisely adapted to the fluid requirements of the application using various mop plates. Thanks to the space-saving design, the 2.0 ERGO 200 can be easily stowed away and transported.

Compact double bucket system

Ideal for cleanrooms ISO Class 14644-1 7-8 (GMP C, D)

Precise mop wetting in one step

Hands free system preventing cross contamination

Comes with trackless castors that are electrically dissipative

Can be used in laboratories, semi conductor and electronics production areas

2 blue plastic buckets

Fully autoclavable

Compatible with all PurQuip® mop frames, handles and mop heads

Ultra compact and maneuverable - ideal for smaller areas

Time saving and quick to use - no wringing needed

Light weight and ergonomic - no bending required

Effective and consistent - produces the same result every time

**Dimensions** - 420mm x 600 mm x 340 mm

**Weight** - 8.9kg

### **Product Icon Attributes**

Suitable for ISO 7-8, Auto clavable, Trolley system, Plastic

### **Brand**

Hydroflex

### **Type**

Mopping trolley

### **Lead time (if out of stock)**

Up to 6 weeks

### **Pack Size**

1

### **Materials**

Plastic Buckets

### **Construction/Material**

Stainless steel/plastic

### **Applications**

Cleanrooms (from ISO Class 5 - 8). Laboratories, semi conductor electronics and pharmaceutical production, manufacturing areas

### **Country of origin**

Germany

### **Technical data**

2 plastic buckets (blue)

Mop wetting unit

Size: 420 x 600 x 340mm (LWH)

Weight: 9kg

Precise mopping in one step

### **Sterility**

Non-Sterile

### **Cleanroom class**

ISO Class 7+

### **Handling & storage**

On castors, easy to maneuver
